#### Ocular Lubricants

A selection of Eye Drops, Gels & Ointments, with, and without Preservative, for Sale & Supply.  
Please note there are a large number of very effective treatments, available to Optometrists to supply to patients, which are not available through the NHS.  
However for those patients who require an NHS prescription, then consider:  
Hypromellose drops 0.3%  
Polyvinyl Alcohol drops 0.2%  
Sodium Hyaluronate drops 0.2%  
Carmellose Sodium drops 0.5%

Basic Hard Surface Disinfectants and Hand Hygiene to be observed at all times.
