

Lid Lesion Advice

Mrs Bridget Hemmant, a local consultant who specialises in lacrimal and re-constructive eye surgery has very kindly offered to provide an INFORMAL advice and guidance service for optometrists working in our area.

If you are unsure if a lid lesion requires referral, then please send **a good quality photograph** to one of the following email addresses and Mrs Hemmant will endeavour to give advice. Please **DO NOT include any patient identifiable data** and please use your nhs.mail address wherever possible.

Remember, this is a *guidance service only* and does not constitute a referral - the patient remains **your responsibility**.

Please email Mrs. Hemmant at: Bridget.hemmant@jpaget.nhs.uk

For private work: enquiries@bridgethemmanteyesurgery.com

Her website is worth checking out too!
